PROFESSIONAL SUMMARY

Full Stack Software Engineer with 3.5+ years of experience developing scalable web applications using React, Next.js, TypeScript, Node.js, Python, and Go. Experienced in designing and building production-ready frontend and backend systems, developing REST APIs, and working with PostgreSQL and MongoDB. Led the architecture and development of Clodura.ai's Chrome Extension, delivering LinkedIn and Sales Navigator integrations, browser automation workflows, and production features used by 500+ users. Comfortable owning features from design and implementation through testing, deployment, and production support.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, Go (Golang)

Frontend: React.js, Next.js, Angular, Redux Toolkit, Context API, Tailwind CSS, Material UI, Shadcn UI

Backend: Node.js, Express.js, Python, FastAPI, Go, REST API Design & Development

Databases: PostgreSQL, MongoDB, Mongoose

Browser Technologies: Chrome Extensions (Manifest V3), Content Scripts, Background Services, Browser APIs, Message Passing

Authentication & Security: JWT, OAuth 2.0

Developer Tools: Git, GitHub, GitLens, Postman, Thunder Client, VS Code

AI Tools: GitHub Copilot, Gemini API

Other: Data Structures & Algorithms (DSA), PostgreSQL to MongoDB Migration

PROFESSIONAL EXPERIENCE

Clodura.ai, Pune

Feb 2024 - Present

Software Engineer

Web Application Development

- Designed and shipped product features using React, Next.js, and TypeScript, integrating REST APIs to power contact management, prospecting, and data enrichment workflows.
- Engineered the in-app notification system to deliver real-time updates, improving application responsiveness and user engagement.
- Investigated and resolved issues across the frontend and backend, strengthening platform stability through end-to-end debugging.

Backend Development (Go)

- Built and shipped REST APIs in Go for scheduler management and email verification, integrating them into the React/Next.js frontend and owning the feature end-to-end from backend development through debugging.
- Implemented JWT-secured, PostgreSQL-backed endpoints, performing API testing and validation to ensure reliable authentication and data handling.

Chrome Extension Architecture

- Architected and led development of Clodura's Chrome Extension (Manifest V3), serving 500+ users across the Chrome Web Store and internal teams.
- Shipped 10+ features spanning LinkedIn and Sales Navigator integrations, contact unlocking, and list management using Content Scripts, Background Services, and Message Passing.
- Led the end-to-end migration from Manifest V2 to Manifest V3, optimizing extension performance and state management for large-scale data processing.
- Resolved cross-browser compatibility issues and mentored junior developers on extension architecture and best practices.

Tratoli TMC, Mumbai

Mar 2023 - Jan 2024

Front End Software Developer

- Built and enhanced booking flow UI components, translating Figma designs into responsive React.js interfaces.
- Diagnosed and resolved production bugs, maintaining code quality and consistency across releases.

PROJECTS

AI Documentary Video Generation Pipeline - Personal Project

- Designed a modular AI pipeline automating documentary video generation, integrating LLMs (via Ollama) for script generation with Edge-TTS narration, subtitle generation, and FFmpeg-based video rendering.
- Engineered independent, automated services in Python for each pipeline stage (script, narration, subtitles, rendering), building an end-to-end automation workflow from raw input to final video output.

EDUCATION

Full Stack Web Development, Masai School, Bengaluru

Mar 2022 - Mar 2023

B.E. (Electrical), S.N.D. College of Engineering & Research Center, Yeola

Jul 2017 - Nov 2020

Diploma in Electrical Engineering, S.N.D. Polytechnic, Yeola

May 2014 - Jun 2017

SOFT SKILLS

Technical Leadership, Ownership, Cross-functional Collaboration, Mentoring, Problem Solving, Analytical Thinking, Code Review
